Re: Updates to the WRS Health System

WRS Health is proud to announce the addition of several new areas of functionality released in the last few weeks. These include:

1-Click Multiple Claim Submission

Functionality has been added to simultaneously create, scrub and submit multiple claims at one time. To enable this functionality, you must first enable **1-Click Submission** under **Administration>System Settings>Practice Settings**. Select **Enabled** under **1-Click/Multiple Claim Submission** (bottom of page) and press **Save**.

After **1-Click Submission** has been enabled in your practice, go to the **Billing>Create Claims Queue** to specify the range of claims that you want to create. Press **Search** to run a query.

Create Claims

DATE OF SERVICE: 05/01/2016 to 05/26/2016

TODAY MONTH TO DATE LAST MONTH YEAR TO DATE

CHART TYPE: Any

Entries that match your query will appear under **Results**. Use the top (left) check box to select all claims on that page or check the individual boxes to specify only a subset of claims to be created, scrubbed and submitted.

Create Claims

Results

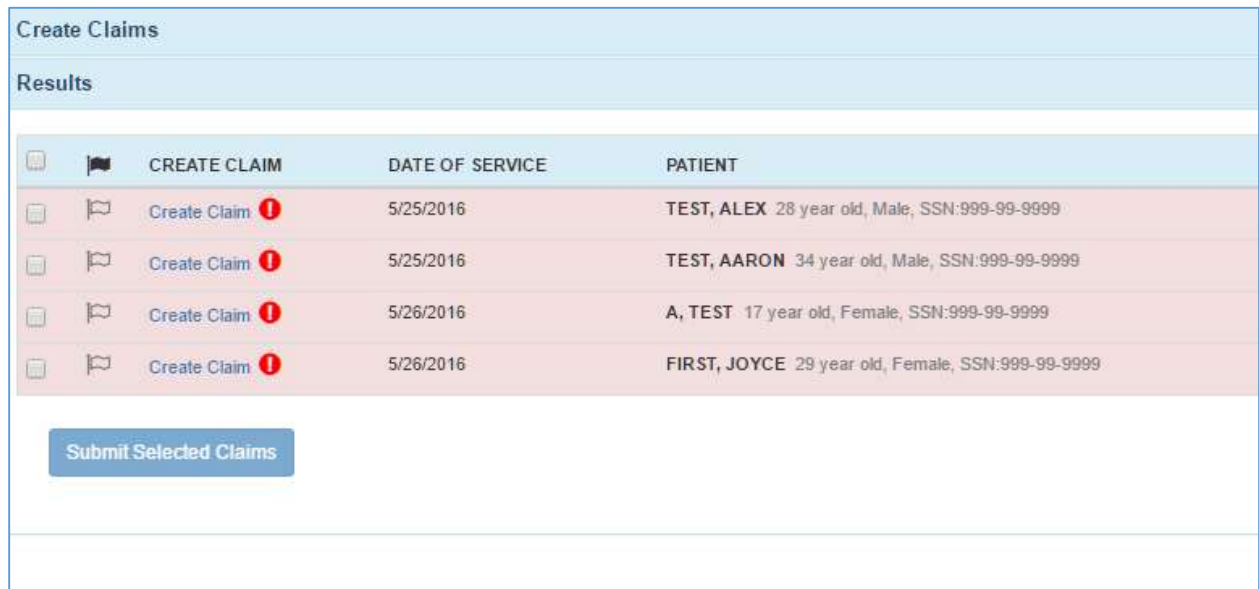

<input type="checkbox"/>	<input type="checkbox"/>	CREATE CLAIM	DATE OF SERVICE
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Create Claim	5/25/2016
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Create Claim	5/25/2016
<input type="checkbox"/>	<input type="checkbox"/>	Create Claim	5/26/2016

Once you have made your selection press **Submit Selected Claims**. Each claim will then be created, scrubbed and checked for errors.

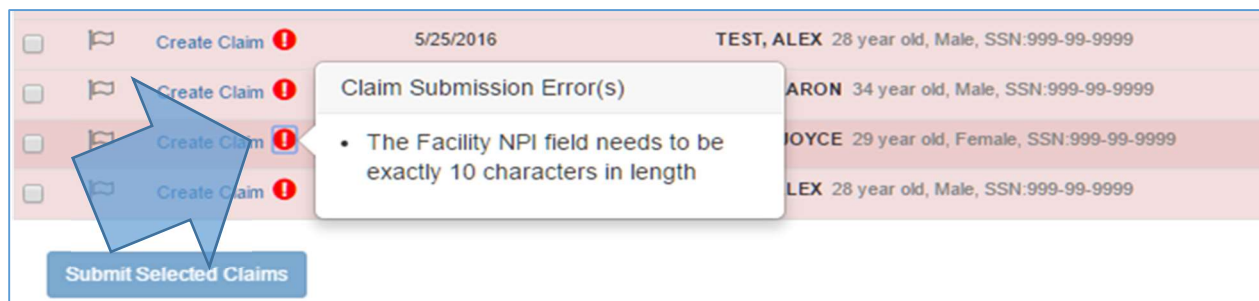

Claims that are error-free will be displayed with a green icon and transmitted to the clearinghouse on the same schedule as our existing individual claim transmission (Midnight EST).

Claims with errors will be identified with a red icon appearing next to each.

Clicking on the red icon will display a popup box with details on **Claim Submission Errors**. These items should then be addressed and claims can be created and submitted individually.

Note that the above steps should be repeated for each page of your query results. You can repeat this entire process as often as desired to create, check and submit multiple claims.
